

COVID STATUS	Survey	Lead Officer	Date	Species	Area	Aim	Time series	Outcomes
PROCEED	Mullet (thin lipped/golden grey industry sampling)	JS/SP	May-Jun	Golden grey and think lipped mullet	Sites across the district	Collect samples from industry to be analysed by Plymouth university to feed into Size of Maturity study.	2020 2021	The evidence will feed directly into the scheduled MCRS review.
PROCEED	Mullet (thick lipped) industry sampling	JS/SP	Jan-May 21 (scoping) Nov-Mar 21/22 main sampling (likely focused on 2-3 months)	Thick Lipped mullet	Sites across the District.	Collect samples from industry to be analysed by Plymouth university to feed into Size of Maturity study.	2020 (scoping)	The evidence will feed directly into the scheduled MCRS review.
PROCEED	Gilt Head Bream	JS/SP	Nov - Mar	Gilt head bream	Dorset	Collect samples from industry to be analysed by Plymouth university to feed into Size of Maturity study.	NEW	The evidence will feed directly into the scheduled MCRS review.
PROCEED	Whelk	JS/SP	Jun	Whelk	4 sites across the district	Collect samples from industry to be analysed by a University to feed into Size of Maturity study.	NEW	The evidence will feed directly into the scheduled MCRS review.
PROCEED	Skates and Rays	JS	Flexible	Blonde and Small eye	District Wide	No samples required, measurements taken in situ either through compliance or stakeholder projects to inform wing/disc/length ratio's.	NEW	The evidence will feed directly into the scheduled MCRS review.
PROCEED: DEVELOP	Solent scallop Stock Ass.	PC	Apr	King scallops	Solent	To improve understandings of emerging Solent Scallop Fishery. Collect CPUE data for scallop fishery Collect biometric data for clam scallop fishery.	NEW	Informs management under SDPB permit conditions once the byelaw is implemented in November 2021
PROCEED: DEVELOP	Poole Pacific Oyster	SB/PC	Jun	Pacific Oyster	Poole Harbour	TBD	NEW	Informs management under Poole Order 2015 with regard to aquaculture lease beds.

PROCEED: AMEND	Poole Bivalve Survey	SB	Apr	Clam and Cockle; other bivalve species (secondary)	Poole Harbour	Feed into time series; Collect CPUE data for clam and cockle species; Collect biometric information on clam and cockle populations;	2016 2017 2018 2019 2020	To inform management of Poole Clam and Cockle Fishery under the PHDP Byelaw; to support MSC certification
Ongoing Review (April)	Small Fish Survey	SP	May /Jun	Estuarine Fish Species	Poole, Newtown, Yarmouth, Fleet.	Provide understanding of value of Estuaries for juvenile fish; Stakeholder engagement; Collect biometric information on fish species.	2016 2017 2018 2019 2020	Engagement with stakeholders. Development of a dataset highlighting the importance of estuaries to certain species. Identify suitable fish nursery, feeding and refuge habitats suitable for management. Monitor the impact of management.
Ongoing Review (April)	Solent Oyster Stock Ass.	PC	Jul /Aug	Native Oyster	Solent	Provide CPUE data for native oyster. Inform management of Solent bivalve fisheries; Collect biometric information on native oyster population;	2014 2015 2016 2017 2018 2019 2020	Inform use of Temporary Closure byelaw and to inform future use of SDPB.
Ongoing Review (Jul)	Solent Bivalve Stock Ass. (Autumn)	PC/SB	Oct	Clam and Cockles; Other bivalve Species (secondary)	Portsmouth Langstone & S'ton Water	Feed into time series; Collect CPUE data for clam and cockle species; Collect biometric information on clam and cockle populations	2017 2018 2019 2020	To provide a 5-year baseline of CPUE data to inform any future management in the Solent bivalves fisheries. The Authority have committed to this intention under the SDPB Management Intentions Document. Informs management under Solent Dredge Fishing Byelaw and SDPB (pending)
Ongoing Review (April)	Small Fish Survey Autumn	SP	Oct	Estuarine Fish Species	Poole, Newtown, Yarmouth, Fleet.	Provide understanding of value of Estuaries for juvenile fish; Stakeholder engagement;	2016 2017 2018 2019 2020 (partially achieved)	Engagement with stakeholders. Development of a dataset highlighting the importance of estuaries to certain species.
Ongoing Review (Jul – with Autumn survey)	Solent Bivalve Stock Ass. (Spring)	PC/SB	Mar (22)	Clam and Cockle; other bivalve species (secondary)	Portsmouth Langstone & S'ton Water	Feed into time series; Collect CPUE data for clam and cockle species; Collect biometric information on clam and cockle populations;	2017 2018 2019 2020 2021: TBD	To provide a 5-year baseline of CPUE data to inform any future management in the Solent bivalves fisheries. Authority have committed to this under the SDPB Management Intentions Document. Informs management under Solent Dredge Fishing Byelaw and SDPB (pending)
