

# Upgrade to Jets™

- a smarter solution  
for your sanitary system

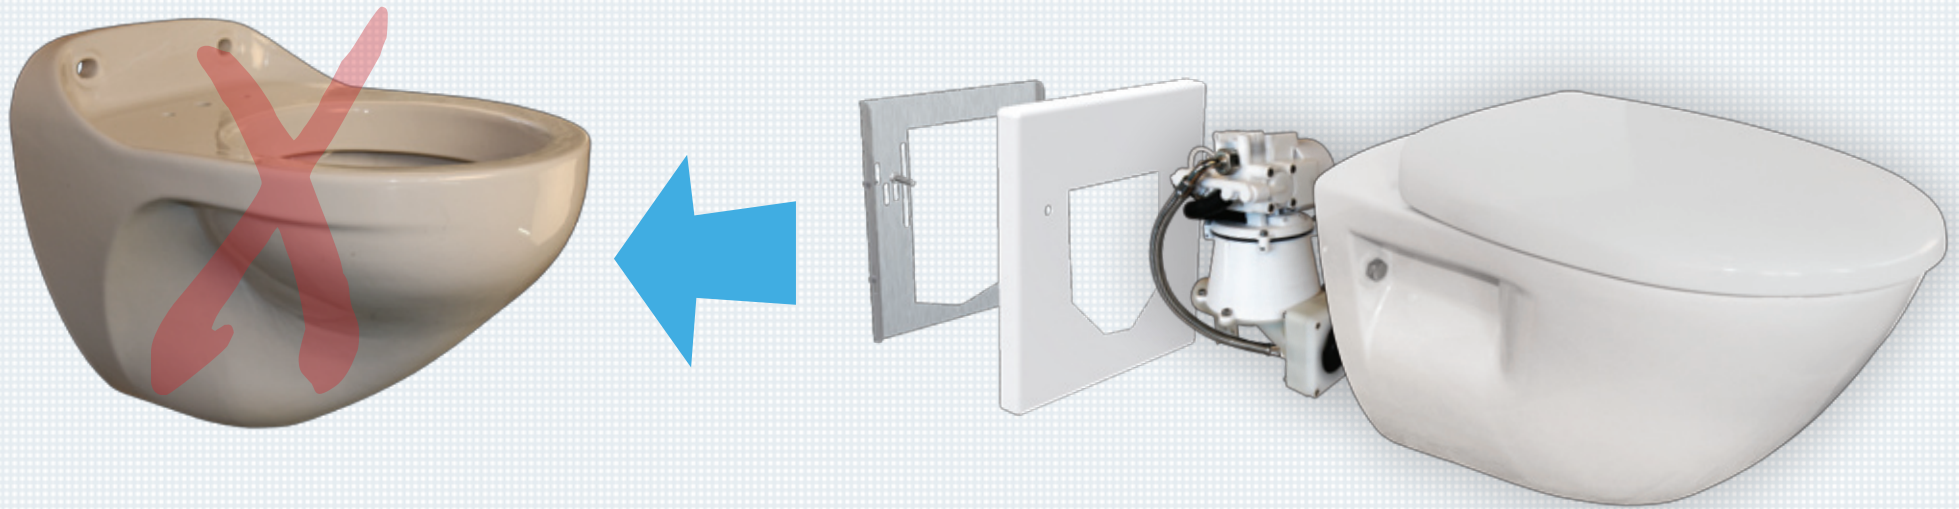

**JETS™**  
Sanitary Systems  
- made to please

# Replace any toilet ...or

Save on maintenance hours and spare parts costs - replace your vacuum toilets with Jets™ vacuum toilets.

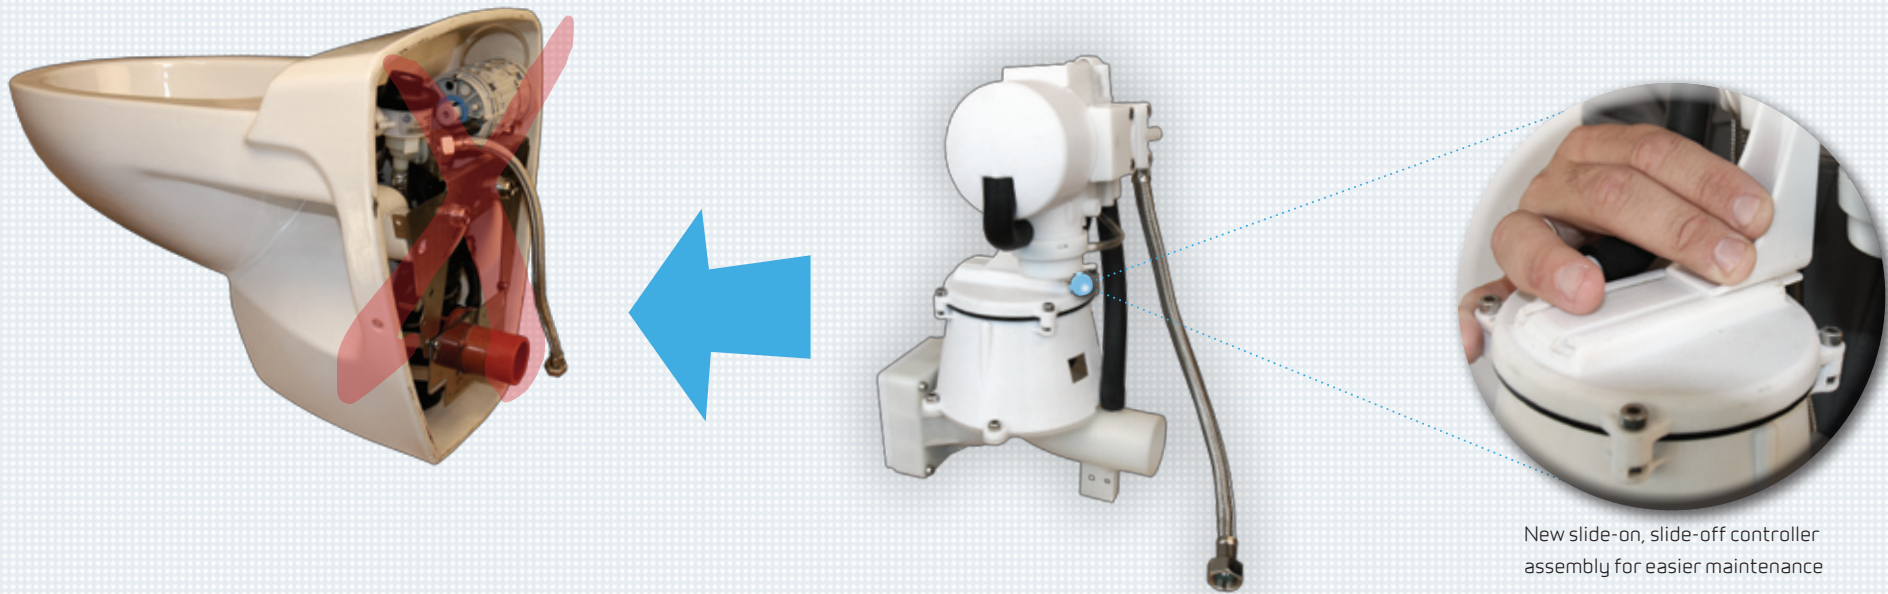

Quick and easy replacement using our new adapter  
which fits all bolt patterns for current toilet installations!

# only the toilet mechanism

The new Jets™ retrofit valve will fit directly into your current vacuum toilet models, and works on any vessel equipped with a vacuum toilet system.

Quick and easy replacement using our reliable valve technology in its latest version - now adapted to fit any vacuum toilet!

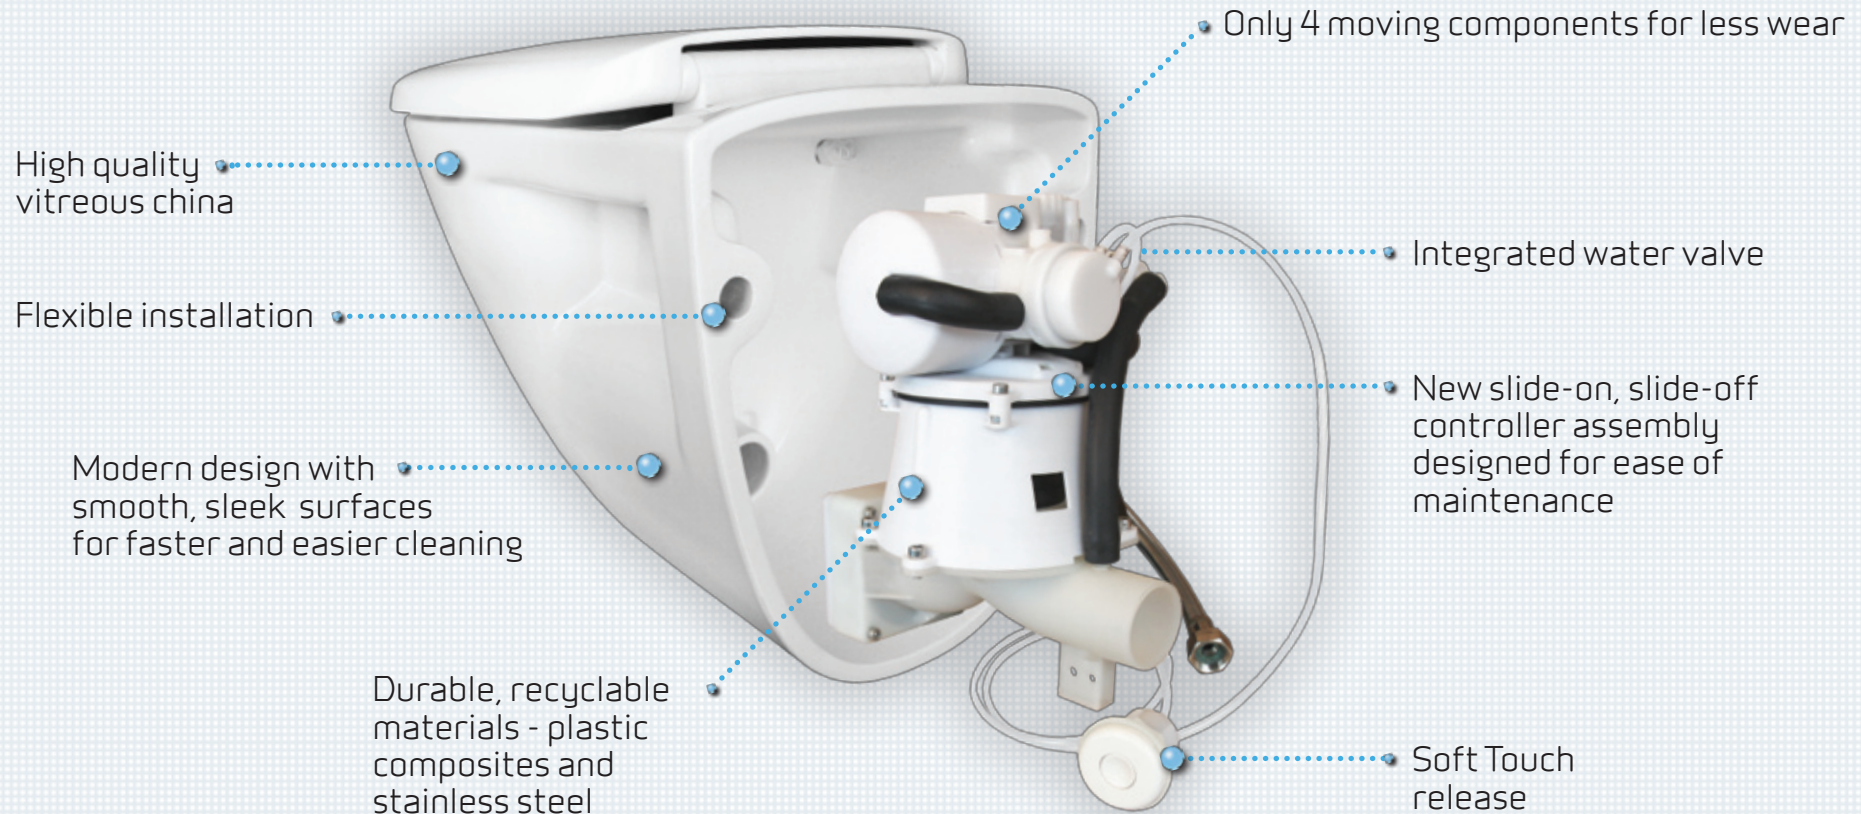

New slide-on, slide-off controller assembly for easier maintenance

# Simple and reliable

Our entire product range has a solid performance and quality record. More than 230,000 Jets™ toilets are in operation world wide.

All toilets and mechanisms feature industry standard 50 mm (2") connections, fully interchangeable with any vacuum toilet system.

# Jets™ advantages

- Global service 24/7
- Proven technology
- Highly reliable operation
- Increases passenger satisfaction
- Easy to install
- Easy to maintain
- Easy access to spare parts
- Low life cycle costs

## Unique expertise in upgrades and retrofits

- Our skilled teams offer in-depth knowledge, experience and expertise for upgrades to Jets™.
- We will assist in finding the most economical and practical solutions for any vessel.
- It is easy for the crew to carry out a Jets™ retrofit during normal operation

Jets™ has been selected for more than 7,500 newbuildings and 300 retrofits - and still counting.

# Fully interchangeable

The new Jets™ retrofit mechanism is fully compatible with vacuum toilet models from all brands.

No matter what toilet brand is currently on board, your vessels can now finally benefit from Jets™ products.

With the simplest and most service-friendly design available, Jets™ toilet mechanisms are appreciated by thousands of crews worldwide.

The replacement process requires virtually no training, and is typically done by the crew.

No special tools are needed for service and maintenance of Jets™ toilet mechanisms.

# Complete your retrofit

From the smallest upgrade....

## SOFTSOUND™ SEAT AND COVER
