

October Newsletter

Firstly, we would like to say a massive thank you to everyone that came to see us at the Showmans Show this year, it is always a fantastic chance for us to meet new faces as well as catching up with old friends!!

Once again, this year, it was clear to see that vacuum technology is becoming increasingly popular within both the mobile and building markets. As more companies are recognising the benefits of vacuum equipment.

We kicked off the Showmans Show 2017 with our bi-annual training seminar, this year held at the Regency Park Hotel. Those who attended were able to gain hands on training to aid in future maintenance, for both onsite and the out of season repairs and improvements of equipment. The day was rounded off with a sit-down meal where everyone was able to mingle and ask any questions from what they had learnt throughout the day.

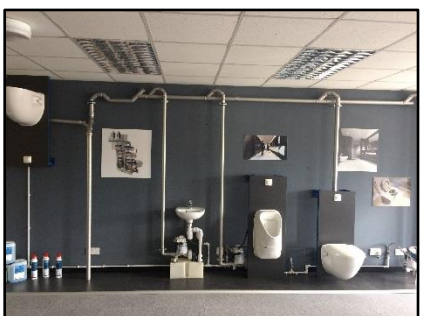

This year we were joined by members of the JETS team from Norway along as well as other JETS distributors from around the world including, Italy and America!

For those that were unable to attend this years training seminar but would have liked to come along, don't forget we hold training days at our premises at Downton, Wiltshire.

The day is free of charge and includes both practical and theoretical learning that has been tailored to your specific JETS equipment.

If you are interested in joining us for a day of training, either send us an email or give us a call with your availability and the names of those that would like to attend, and we will organise the rest.
