## JOURNAL OF THE National Institute for Career Education and Counselling

October 2020 | issue 45

This issue of the NICEC journal presents the work of a number of 'early career researchers'. All of the lead contributors to this issue represent new voices that are beginning to shape the career development field through their research and writing. Everywhere we look our world is changing and the possibilities for career and for the provision of career education and guidance are changing with it. Because of this it is vital that we continue to search for new theories and listen to new voices in the field.

**Editors:** Anouk J. Albien, Bo Klindt Poulsen, Sanna Toiviainen, Miika Kekki, and Tristram Hooley
