NEO collection

concept

> Futuristic

NEO collection has been created with the current trendy futuristic lights and decors in mind: electro concerts, cutting-edge fashion shows, e-sports... These giants neon lights are ideal for an event at the edge of modernity!

> Creative

NEO collection offers an infinite choice of combinations. The tubes can be combined together in different positions. The imagination is the only limit!

> User friendly

Logistics and set up of NEO collection is a child's play! Assembling the product is very simple and set up time is quick.

main features

strengths

> Futuristic design

A collection with a futuristic design, making each event unique.

> Modularity

NEO can be combined with each other, without any limit!

> Quick set up

Less than 5 minutes are needed to set up one NEO.

> LED

Working with RGBW LED, NEO are energy saving luminous decorations

> Safety

NEO are IP67 and thus they are resistant to water and dust.

The picture above represent the original creation Aérosculpture - made by Jean-Pierre David and Christian Thellier. Revisited idea of tensegrity.

NEO collection
