EasyBuild

EASYBUILD PROVIDES UNIQUE SPECIALIST SOFTWARE FOR THE CONSTRUCTION INDUSTRY.

MODULES PROVIDE ALL THE MANAGEMENT AND ACCOUNTING FUNCTIONALITY TO BRIDGE THE GAP BETWEEN OFFICE AND SITE, ENABLING YOUR BUSINESS TO THRIVE.

EasyBuild

O riginally developed exclusively for the Durkan Group, EasyBuild construction industry accounting and project management software is now available to benefit businesses industry-wide.

EasyBuild's Enterprise Resource Planning system (ERP) was designed after intense and extensive research into the most diverse range of businesses within the industry – a unique insight underpinning the design and build of the most user-friendly and cost-efficient software solution available.

Those using our products range from traditional building contractors and house-builders to contractors and subcontractors. Our client base also includes companies that hire and sell plant and machinery and firms that carry out planned and reactive maintenance and works orders projects.

A winning combination of cutting-edge software from Microsoft, Oracle and construction industry expertise has enabled us to successfully grow our user base and the EasyBuild brand both within the UK and overseas.

ORACLE®　**Microsoft**

" **EASYBUILD WERE ABLE TO COLLECT AND TRANSFER ALL OUR CURRENT DATA FROM DIFFERENT DATABASES INTO THE NEW EASYBUILD SYSTEM. THEY ALSO PROVIDED SIGNIFICANT TRAINING AND BACK OFFICE SUPPORT, ALWAYS DEALING QUICKLY VIA EMAIL OR PHONE TO OUR QUERIES.** "

DAVID DAWSON
Financial Director – Abbey Developments PLC

WHAT ARE THE
BENEFITS?

EasyBuild is a suite of application software that addresses the operational requirements of today's competitive industry. This includes compliance regulations, finance and project management. It helps you manage and control any substantial construction project by giving you complete and instant access in its progress – take real time snapshots of how profitable your project is with full analysis of costs, revenues, liabilities and surveyor adjustments.

EasyBuild is specifically designed to meet the needs of your organisation, with its intuitive user interface, modular structure and scalability – it is the complete solution for any construction project.

EasyBuild's underlying platform, Oracle, ensures your application grows with your business. There are also no restrictions to the number of system users.

BENEFITS OVERVIEW

▶ **Modular structure**
Powerful modules to manage and control your business data

▶ **Modern look and feel**
EasyBuild uses the latest available technologies

▶ **User friendly**
Easy to use and easy to learn

▶ **Sophisticated cost-value reconciliation / CVR**
Take out real time snapshots of how well your projects are performing in a smart dashboard style environment

▶ **Drill-down capabilities**
Go from a high level of information to the most detailed aspect within seconds

▶ **Latest technology**
By using Oracle as its underlying platform, EasyBuild leverages on its resilience, reliability, scalability and latest Microsoft Windows .NET framework

▶ **Central source of information**
Key information is stored in one central repository, eliminating departmental islands of information

▶ **Fast performance**
Manipulate your data and run reports quickly and easily

▶ **Pre-defined & ad-hoc reporting**
EasyBuild contains over 500 pre-defined reports using the industry standard Crystal Reports. Each report is fully customisable or simply create your own reports

▶ **Optimum security**
The system uses stringent levels of security to keep your data safe

▶ **Remote access**
Subject to security permissions, the full EasyBuild capabilities can be accessed via latest internet technologies from remote building sites or other office locations

EasyBuild

WE HAVE BEEN MOST IMPRESSED WITH EASYBUILD, PARTICULARLY THE PROJECT COSTING SIDE, WHICH CLOSELY RESEMBLES THE WAY MY SURVEYORS ARE USED TO DOING CVRS ETC. THEREFORE, THE PRODUCT IS VERY USER FRIENDLY.

Ray Llewellyn
Managing Director – HA & DB Kitchin Ltd

THE ADVANTAGE OF EASYBUILD IS ITS USER FRIENDLY INTERFACE AND THE FACT THAT IT OFFERS A COMPLETELY END TO END SOLUTION.
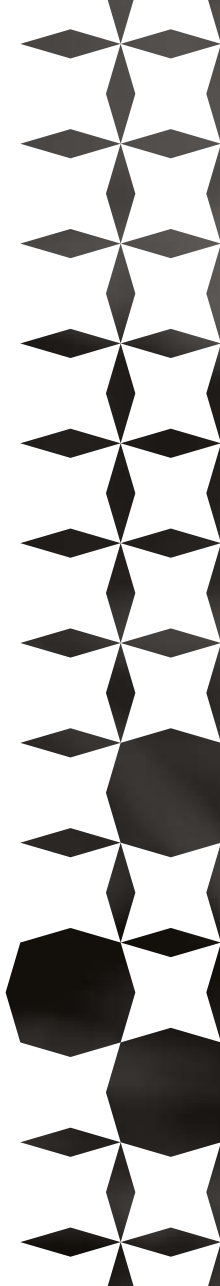

Bob Middlemiss
Financial Director – Paragon Management (UK) Ltd
Part of InterServe Plc

CUSTOMISATION & IMPLEMENTATION

You can choose to install and deploy EasyBuild yourself or to use our installation and customisation services. These ensure your existing systems will be smoothly transferred to EasyBuild whilst giving you the chance to modify or add extra modules to the system.

INTEGRATION

EasyBuild easily integrates with a large number of leading third party software packages, such as estimating and document management systems. With our technology partners we can also integrate with BIM (Building Information Modelling) systems.

PRODUCT
BENEFITS

▸ Easy to use

▸ Latest technology

▸ Easy implementation

▸ Competitive pricing

▸ Easy migration
