Monday 10th February 2014

To whom it may concern,

EON Rochdale received £7,947.00 in refunds/savings for overcharges

We recently used the services of Water Management Solutions UK Ltd, a company who specialises in reducing water costs. They came recommended and seemed to have a good market reputation. After using their services the results very soon spoke for themselves.

Our water costs at this depot appeared to be high so I contacted WMS UK for their help. They requested copies of our water billing for analysis and almost immediately started to investigate irregularities with our bills.

WMS UK soon after submitted an application to the water company that resulted in a refund of £4,704.59 and the removal of ongoing annual charges valued at £3,242.99.

We were happy with our financial arrangement with WMS as they only get paid when positive results are achieved which seemed a fair system to me.

This is an accomplished team of industry professionals who delivered results for us and not excuses. They worked in a very friendly and professional manner and can be trusted to get the job done. I would not think twice about using this company and its services again if the need arises.

Yours Sincerely

Greg Watson
Head of Highways Lighting (North)
