

TOYOTA

ALWAYS A
BETTER WAY

6th February 2020

A water audit review was undertaken by Water Management Solutions (WMS) on our site, we took advantage of the "no win no fee" basis.

After providing WMS with copies of water bills, they looked in detail at charges we were paying on our monthly invoices to our water supplier, checking consumption, current and historic charges, suitability of tariffs and carried out a site visit as part of the process.

The process revealed that we had been over charged £5800 per annum, what was really shocking these overcharges had been in place since October 2013. WMS's expertise resulted in the removal of all overcharges, the refund we received in the form of a cheque from the water company was great news. More importantly in the removal of these overcharges we will be saving £5800 every year on our water bills. A brilliant result.

The WMS team were friendly, professional and were thorough in the way they went about their surveys of both land and our paperwork. I have enjoyed working with them and have no hesitation in recommending their services.
