Cookies ....mmmmmm anyone for tea!!!!

So we're not talking about the Chocolate Chip variety here but the type that store information on your computer as you visit a website. They are in use on most websites and do not harm your computer.

Learn with Louise Driver Training uses the following cookies on this website:

Absolutely Necessary Cookies which are 'Absolutely Necessary' for the functioning of our website. These cookies are called **ASP.NET_SessionId and JSESSIONID.** The ASP.NET_SessionId stores a 'Session ID' which is used by Microsoft .NET Framework to deliver the web pages to you the visitor.

The New Relic JSESSIONID cookie is used to store a session identifier so that New Relic can monitor session counts for our applications. The cookie value is generated by Jetty. This is used to track any potential server errors and review the performance of the websites hosting platforms.

All of these cookies expire at the end of your browsing session once you leave the website to visit another one or close your browser window.

Because they do not remain on your computer it has no way of tracking your website usage or retaining any of your data post expiry.

We also use Google Analytics to track visitors and usage of our website. This is not viewed as intrusive and we only receive anonymous information to help us understand how many people are visiting the website, and how long they are spending browsing the site. This information is used by us to help us improve the site. These cookies can be **_utma/_utmb/_utmc/_utmz.**

You can check or change what types of cookies you accept, this can usually be altered within your browser setting. You can block cookies at any time by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site.
