 Multiplication + Division	Question 1: I can multiply by 0 and 1 .	I feel
<p>Fill in the missing boxes</p>		
a) $13 \times 1 =$ <input type="text"/>	d) $2 \times 3 \times 1 =$ <input type="text"/>	
b) $23 \times 0 =$ <input type="text"/>	e) 671 <input type="text"/> $0 = 0$	
c) $89 \times$ <input type="text"/> $= 0$	f) 21 <input type="text"/> $1 = 21$

Question 3 :
I understand that multiplication is commutative.

I feel

Sophie has 12 counters. Write a multiplication sum she can create using the 12 counters. Write another sum using the commutative law.

$$\square \times \square = \square$$

$$\square \times \square = \square$$

Post Learning:

Question 4:
I can find factor pairs of numbers.

I feel

Write the factor pairs for each number below:

9

$$\begin{array}{ccc} \square & \times & \square \\ \square & \times & \square \end{array}$$

18

$$\begin{array}{ccc} \square & \times & \square \\ \square & \times & \square \\ \square & \times & \square \end{array}$$

 Multiplication + Division		Question 5: I can multiply amounts by 10 and 100.	I feel
a) 10×6	<input type="text"/>	d) $12 \times 10 =$	<input type="text"/>
b) 100×7	<input type="text"/>	e) $3 \times 30 =$	<input type="text"/>
c) 11×100	<input type="text"/>	f) $60 \times 5 =$	<input type="text"/>

Post Learning:

 Multiplication + Division		Question 6: I can double 2 digit amounts.	I feel
Double amounts			
a) 80 doubled		d) 65 doubled	
b) 300 doubled		e) 88 doubled	
c) 34 doubled		f) 59 doubled	

Post Learning:

 <p>Multiplication + Division</p>	Question 7: I can multiply 1 digit amounts by 2 digit amounts mentally	I feel
Complete these sums :		
a) $14 \times 4 =$	c) $25 \times 3 =$	
b) $13 \times 6 =$	d) $24 \times 5 =$	

Post Learning:

 <p>Multiplication + Division</p>	Question 8: I can use written methods for multiplication sums.	I feel
a) $37 \times 5 =$ <input data-bbox="488 1352 699 1460" type="text"/>	b) $56 \times 6 =$ <input data-bbox="1123 1352 1337 1460" type="text"/>

Question 9:
I can solve multiplication missing number sums.

I feel

Fill in the boxes to make each sum correct.

a) $\times 5 = 40$

b) $9 \times$ $= 54$
