

TASAR DINGHY FACTORY ORDERS

November 2024

Two Tasar Specifications:-

Signal Locker offers two standard levels of specification for new Tasar Dinghies...

- A 'Measurement Boat' includes the hull and deck with all the fittings that are permanently attached to the boat (jib and main tracks, forestay fitting, toestraps etc). All these standard fittings will be fitted in the factory with the exception of the mast pin plate.
- A 'Race-Ready Boat' that is fully fitted out and ready to sail.

A full list of the equipment supplied with each can be found on pages 4 and 5 below.

Factory Order Date:-

Tasar dinghies are all built to order from a common mould at Xtreme Sailing in Batam. To spread the cost of transport to the UK we need to order groups of 4 or 5 boats so that we only ship full containers. It is important therefore that customers order boats on a common timetable.

This year we are asking for orders to be placed by the end of November; the shipping date will be about 9 weeks after that, and the shipping time is typically 8 weeks.

We are therefore expecting boats to be available for delivery from the end of March 2025.

The Order Process:-

The order process is as follows...

Step 1 - Use the 'Tasar Reservation Form' (on page 3 below) to inform us that you would like to order a new Tasar, and to indicate whether this would be a complete 'Ready-to-Race' boat or a 'Measurement Boat'. This does not commit you to buy a boat and no deposit is required at this stage.

Step 2 - When we have enough orders to fill a container we will call you with the projected manufacture and shipping dates for your boat. If you are happy to go ahead, we will send you an 'Order Confirmation' and an invoice for the first stage payment.

Step 3 - If you are ordering a 'Measurement Boat', you can skip stage 3..... However, if you are ordering a 'Race-Ready' boat we'd like to review the fit-out specification with you. We'll send you the specification in the form of a check-list, giving you the opportunity to make alterations and additions.

For example you may have a preference for different cleats, lines and blocks to the standard specification. The process of finalising the fit-out specification of your boat will take some time, so we propose to work together with you to customise the equipment list while your hull is being built; aiming to have an agreed customised specification by the time the hull is dispatched from the factory in Batam. If changes are made that increase or decrease the fit-out cost of your boat, stage payments 2 and 3 will be updated accordingly.

Step 4 - We will send regular updates regarding construction progress, and details of shipping arrangements as soon as these are available. The second stage payment invoice will be sent as soon as we have proof of shipment from the Builder, and will be due for payment within seven days.

Step 5 - On arrival in the UK, the container will be unloaded in Lymington. We will inspect the boats and contact you to arrange collection or delivery. 'Measurement Boats' will be available immediately following inspection. 'Race-Ready Boats' are partially fitted-out in the UK and will therefore be available approximately 2 weeks after the container's arrival.

Prices, Stage Payments, Terms of Business:-

- Measurement Boat:- £ 8,115 (Ex Works Lymington UK, Including VAT)
- Race-Ready Boat:- £13,797 (Ex Works Lymington UK, Including VAT)

Stage Payments		Approximate dates	Measurement Boat Only	Race-Ready Boat
1	With Order	30-Nov-2024	£2,705	£4,599
2	On Factory Dispatch	22-Feb-2025	£2,705	£4,599
3	On Delivery	19-Apr-2025	£2,705	£4,599
			£8,115	£13,797

We use the BMF standard Terms of Business (version 15a); a copy of which can be found on the reverse of all invoices.

If you are thinking about buying a new Tasar and would like to discuss any aspect of the ordering arrangements, please give me a call on:- (+44) 07970 132110.

Kind regards

Mandy Stock
Signal Locker Limited

Step 1 - Tasar Reservation Form

This is the information we need to get things started. You can fill in this form, or if you prefer you can just send an e-mail that includes the information below to... info@signallocker.co.uk
