"Miles ahead of its time, clever, durable and an aerodynamic benchmark..."

Seahorse Magazine

"Best all-round boat ever designed. The combination of performance and simplicity is unmatched"

Jonathan McKee - Double Olympic medallist, AC sailor, Tasar World Champion

- The Tasar attracts sailors from club level to Olympic medallists. Easy to sail - Rewarding to sail well.
- The Tasar is light, fast, and simple. It provides upwind planing performance without trapeze or spinnaker.
- The Tasar's modern, efficient rig provides all the power you want and all the control you need.
- At 68kg the Tasar is super-responsive to sail, light on a trolley and with its 2-part mast can be easily car-topped.
- Frank Bethwaite designed the Tasar with husband/wife and parent/child crew combinations in mind.
- With its deep cockpit and wide, angled side decks, the Tasar has a comfortable and effective hiking position.
- The Tasar is a one-design class with a low entry-cost; hulls remain competitive for many years.

A design classic from Frank Bethwaite and Ian Bruce, the Tasar is a thoroughbred family racing dinghy.
