

Quality procedures

Pegasus is run by experienced healthcare professionals and as such has adopted a strict in-house quality control procedure.

Pegasus will only supply doctors of the highest calibre. All our doctors are screened as part of our recruitment policy.

We promise to:

- Check Performers List status
- Check Medical Indemnity
- Check Appraisals
- Check G.M.C. / C.R.B. status and licence to practice
- Check Identity / Evidence of Entitlement to work
- Check References
- Check C.V.s / Training Certificates
- Check Health screening details

We further promise to:

- Keep you informed at all times on the progress of obtaining a suitably qualified doctor
- Contact you if there are problems, so that alternative plans can be made
- Monitor the locums' quality. After each locum booking a short questionnaire will either be sent or contact made to receive your comments
