

General Information and Procedures for Greek Island Gulet cruises

1. Check in and boarding starts from 15:30 on your first day and the first meal is dinner on board. Check out will be on the last day after breakfast at 10:30 am.
2. As the first and the last days are transfer days, these nights will be spent in the marina.
3. During the "Blue Cruise" the engines will mostly be used. However the sails can be opened from time to time according to the weather conditions and wind direction. The sail on the yacht will be opened at least twice a week.
4. The captain may make changes to the cruise program according to the sea and weather conditions. This is for the safety and security of our guests. Sailing is not permitted by port authorities in case of winds if 6-7 Beaufort or more.
5. Drinks or alcoholic beverages must not be purchased on land and brought on board. A large selection of drinks can be purchased from the bar of the yacht at a reasonable price and bills will be paid at the end of the cruise.
6. Our cruises are sold directly as well as through our tour operators. Fellow passengers will consist of people who love the sea from all over the globe and we believe this creates the perfect opportunity to meet people from every type of culture. We cannot and do not control the age or nationality of guests on board - No children under the age of 12 are allowed on board for Cabin Charters. For those who have children, they may hire a private gulet as we have gulets ranging in size from 2 cabins upwards.
7. Our cruises are carefully planned and every detail thoughtfully considered. We have had the experience of planning cruises for a number of years. Tours are printed in our brochures and therefore we cannot make changes to the itinerary according to customer's special requirements.
8. Instructions about being a guest on the boat will be given to our guests during embarkation.
9. We cannot guarantee availability of twin or triple cabins.
10. All cabins have A/C, private WC / shower, portholes and a small wardrobe. The toilets can either be of the flushing type, marine type with a pump or electrical.
11. In all of our boats there is sufficient safety equipment on board including life jackets & lines, dingy boats and a life raft. These all meet international safety requirements.
12. We guarantee an inverter or generator to charge your electrical gadgets in the communal areas. You may have 220V in your cabins too.
13. All yachts store basic fishing lines, flippers and snorkels for the use of our guests.
14. In our cabin charter prices, Port Charges for all ports and fuel surcharges are included in the price.
