

Patient Plans

Our aim is to provide high quality care and treatment. Our Patient Plans not only spread the cost of dental care across the year, but form part of our preventive approach here at Fountain Dental Practice. While we are proud to offer high-quality private dentistry, we understand that financing can be a worry for some – and that's why we joined with DPAS Limited to design a comprehensive dental plan to make things that bit easier.

Our Memberships are paid by monthly direct debit and covers the costs of 2 examinations with the dentist, any routine radiographs and 2 routine hygiene appointments with one of our therapists per year. Any other treatment that you may need is given at a 15% discount.

You can sign up to this straight away without seeing the dentist first. Simply contact reception to leave your details and we can email you a link to sign up. Please note, with all the plans there is a £10 admin fee in the first month. Then once you are signed up you can book in for your first examination at your convenience.

We are also able to welcome private patients who prefer to pay at each visit, however you can see for yourself on our [fees page](#) the benefits of joining the plan – it is simply better value for money than paying as you go.
