

# NORTH EASTERN INSHORE FISHERIES & CONSERVATION AUTHORITY

## IMPORTANT NOTICE TO ALL FISHERMEN

### 2022/2023 SCALLOP DREDGING FISHERY

Please note that from **Tuesday 1 November 2022 until Sunday 30 April 2023** three permitted scallop dredgers will be operating within the following designated areas. This is a long-established seasonal fishery and it is strongly recommended that all vessels working static gear avoid the designated areas between the above dates. Any operators that continue to work static gear within the designated areas and dates do so at their own risk. In line with previous years the Authority expects all commercial fishermen to work positively and collaboratively together and maintain active communication at all times:
