

The world's favourite lock

**we're
in the
frame**

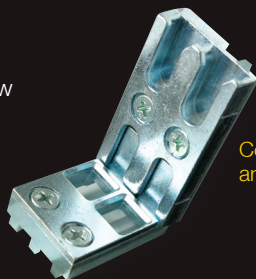

After years of **securing** your doors
Yale is now securing your **windows**

The Yale shootbolt window lock combines anti separation 'mushroom' cams and chamfered security shootbolts, locking into robust zinc alloy strikers, delivering optimal security performance and unparalleled weatherproofing, through easy adjustment of the mushroom cams.

A choice of cropping and non-cropping variants ensures that there is a system to suit both your manufacturing and stocking preferences, covering all sash sizes from 326mm and 1520mm.

Manufactured to the highest specifications and tested to the latest British Standards BS7950 security criteria, the Yale shootbolt window lock is a Secured-by-Design accredited locking system. With the Yale shootbolt window lock, protected by our 10 year security guarantee, providing your customers with Yale backed peace of mind has never been easier.
