5-19 years	<p>Child Wellbeing Practitioners (CWPs) support children and young people who have anxiety or symptoms of anxiety, and depression or symptoms of depression, through the delivery of low intensity, Cognitive Behavioural Therapy (CBT), informed programmes.</p> <p>The referral will be triaged and if viewed to be an appropriate case for the CWPs to work with, the parents/carer and child will be invited to an initial assessment. This initial assessment will determine if the programmes of support are suitable for the child and parent, and which programme would be most beneficial. The CWP will work with the parent if the child is 12 and under and offer group sessions, and they will work directly with young people aged 13-19. On occasions the CWP may work with the young person and parent together.</p>
