

ACCESSIBILITY STATEMENT

Issue Number: 1
Date: 8th December 2021

Grieve Strategic Limited is committed to providing a website that is accessible to the widest possible audience, regardless of technology or ability. We are actively working to increase the accessibility and usability of our website and in doing so adhere to many of the available standards and guidelines.

We want as many people as possible to be able to use this website. For example, that means you should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard
- navigate most of the website using speech recognition software

We've also made the website text as simple as possible to understand.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

This website endeavours to conform to level Double-A of the World Web Consortium (W3C) [Web Content Accessibility Guidelines 2.1](#). These guidelines explain how to make web content more accessible for people with disabilities. Conformance with these guidelines will help make the web more user friendly for all people.

This site has been built using code compliant with W3C standards for HTML and CSS. The site displays correctly in current browsers and using standards compliant with HTML/CSS code means any future browsers will also display it correctly.

If you need information on this website in a different format like accessible PDF, large print, easy read, audio recording or braille, please contact us.

Whilst Grieve Strategic strive to adhere to the accepted guidelines and standards for accessibility and usability, it is not always possible to do so in all areas of the website. We're always looking to improve the accessibility of this website. If you find any problems with the website or think we're not meeting accessibility requirements, please contact us.
