Understanding This Report

This report identifies matters relating to roads, footpaths and public rights of way within and abutting the site boundary. However, where all immediate areas are privately maintained we will indicate the extent of the nearest adopted highway.

Section 1: Roads

Section 1a: Roads, Footpaths and Verges

Identifies road, footpath and verge orders in the vicinity of the site; states their adoption status and details who is responsible for their maintenance. The reply to this enquiry is restricted to highways maintainable at the public expense as defined by s.36 of the Highways Act 1980. This will include relevant details of trunk roads maintained by the Highways Agency.

Section 1b: Traffic Schemes and Orders

Identifies any road improvement schemes or traffic regulation orders in the vicinity of the site.

Please note that in some circumstances road closure orders can be obtained by third parties from Magistrates Courts or can be made by the Secretary of State without involving the local authority.

Section 2: Roadworks

Section 2a: Traffic Alerts

Identifies temporary road works in the vicinity of the site and describes the anticipated impact.

Section 3: Rights of Access

Section 3a: Existing Rights of Way

There is a statutory duty for certain local authorities known as surveying authorities to maintain a Definitive Map and statement which records all public rights of way in their surveying area. Not all paths which are open for use by the public are rights of way or maintainable at public expense. Anyone can walk on a public right of way, but there may be restrictions on accessing such paths using other forms of transport.

Section 3b: Proposed or Amended Rights of Way

Details any amendments or proposals to amend Public Rights of Way.

Next Steps:

For help with the report contact our Customer Services Team on 0844 844 9966 or email helpdesk@landmark.co.uk

If you would like any further information regarding adoption status or Rights of Access amendments please contact the relevant responsible authority. The authority's contact details can be found in the Useful Contacts section of this report.
