

Polypharmacy:

getting the balance right

Polypharmacy and pharmacogenomics masterclass

Thursday 12 June 2025, 12 - 1:30pm

Are you worried that you don't have a handle on pharmacogenomics and what it could mean for your prescribing?

Then join us to learn about how pharmacogenomics could help us to address problematic polypharmacy and how this could work in primary care practice in the future.

Book your place:
