

# CLINICAL SUPERVISOR TRAINING

**ONLINE**

## Becoming a general practice clinical supervisor in Kent, Surrey and Sussex

A clinical supervisor is an appropriately trained educator who is responsible for overseeing a specified learner's clinical work throughout a placement in a clinical environment. We are looking for GPs who intend to host learners and whose practices are happy for them to do so. All eligible general practitioners (GP) in Kent, Surrey and Sussex are welcome to attend our General Practice Clinical Supervision Course.

Eligibility criteria for becoming a GMC recognised GP clinical supervisor:

Be in good standing with the General Medical Council and NHS England

Have been a qualified GP for 12 months at time of CS approval

Regularly work clinically in an approved clinical learning environment (CLE) in KSS

Worked in this CLE on a regular basis for a minimum of 6 months

Follow the abeyance process if required

### Dates:

- **CS71** – 10th July 2024 and 7th July 2024
- **CS72** – 18th September 2024 and 19th September 2024
- **CS73** – 12th November 2024 and 19th November 2024
- **CS74** – 23rd January 2025 and 30th January 2025

**Important to note, attendance for both days within the chosen cohort is mandatory.**

The 2-day interactive remote course introduces key concepts relating to ensuring safety for both learners and patients.

Aspiring GP clinical supervisors will begin to appreciate how to recognise the level at which learners are working, how to begin educational planning through discussion and how to organise educational activities to meet the learning needs of the individual.

Through practical workshops individuals will be able to rehearse in a safe environment the skills needed to give constructive feedback based on observation.
