

## Experienced Part-Time Veterinary Surgeon

Greenwood Veterinary Clinic is an independently owned small animal practice in Ruislip that is proud to have served the local pet community for over 25 years. The clinic has a very good reputation locally for providing high-quality personalised client care and treatment, which we are looking to continue.

Our practice is well-equipped with all the necessary gadgets and equipment you expect from a first-opinion practice. Over the past few months, we have been investing in even more equipment (which will also be ongoing). The practice has invested heavily and is now proud to be able to offer digital radiography, quality ultrasound (provided by a postgraduate certificate holder in diagnostic imaging), anaesthetic and blood pressure monitoring equipment, and excellent surgical and consulting facilities. Also, full IDEXX laboratory facilities. Most importantly, we are proud of our excellent team of experienced clinicians, excellent nurses and support staff with the added expertise of a certificate holder in small animal surgery.

We are looking for a motivated Veterinary Surgeon to join our friendly team on a part-time basis. This is a position with flexibility on working days and hours. We can offer a 2-3 day week of shorter hours or two long days, also no out-of-hours and only a contribution to Saturday morning (once or twice a month). Clinical freedom, style, and areas of special interest are yours to enjoy.

The surgery is located in Ruislip, with excellent transport links to Central London and close to the M25/M4
