

Bribery and corruption

Bribery and corruption

Scaffold Finance will never offer, give or receive bribes or improper payments. We will not participate in any corrupt activity either directly or through a third party. We conduct our business to the same ethical standard and to implement appropriate and adequate procedures. This is to ensure compliance with all relevant legislation on bribery, corruption and prohibited business practices.

Conflict of interest

Should any supplier or client employee be a family relation of a Scaffold Finance employee or have any other form of personal relationship with a Scaffold Finance employee that might represent a conflict of interest, the supplier/client is expected to disclose this fact to the company. Or ensure that the Scaffold Finance employee does so.

Suppliers must also make Scaffold Finance aware of any organisational conflicts of interest that could prohibit Scaffold Finance from pursuing work with the same client.
