## About Us

Natural Nurture is a nursery based on a 33 acre farm in the heart of West Sussex.

We are a nature based setting and our approach is deeply rooted in fostering a strong connection between children and the natural world.

## What We Do

At Natural Nurture our daily activities include cutting firewood, building fires and even cooking over the open flames, learning practical skills and a deep respect for nature.

Everything we do involves using the environment around us and opening up our imagination with a little support from our 'grown ups' when needed!
