Barclays International Pensioners Club

10 July 2026

South Western Region

I am very pleased to report that we can again hold our South Western Region Annual Pensioners lunch at the Victoria Hotel in Sidmouth on Monday 12th October, 12.30 p.m. for 1 o'clock. I know, however, that many folk arrive earlier than this, which they are very welcome to do so in order to spend more time with old friends.

The cost to members, spouses/partners, widow(er)s and helpers, including wine, remains at £15, thanks to the substantial subsidy of the Pensioners' Club. The cost for guests is £30, which figure still does contain a smaller subsidy from Club funds. In order to reduce the workload of our esteemed Treasurer I do ask if you will settle by a cheque if at all possible. This reduces her reconciliation work considerably. However, if you cannot then please do contact me for alternative payment instructions.

In order that we can estimate the wine requirements please delete the option on the form that is not required.

A cash bar will be available, as usual, for pre-luncheon drinks.

A table seating plan will again be prepared this year. It would be very helpful if, in your reply, you would kindly indicate names of friends with whom you would like to sit.

There is a set menu of

- Smoked salmon rillette pickled cucumber ciabatta croutes
- Confit of Duck Leg braised baby gem lettuce orange sauce
- Blackcurrant delice

I am aware that some people would like a vegetarian or fish option. If you would kindly indicate this in your reply an alternative meal will be provided for those making the request.

I do hope that you will be able to attend and we all look forward to meeting each other on the 12th October.

As I have to provide the hotel with precise numbers of those attending well before the day it would be most helpful if you would kindly respond as early as convenient but before the 20th September at the latest, thank you.

If you need to write to me please do so to my email address on the form

Yours sincerely,

David Cawdery

=====

From:
